Dutch Bulbs at Their Best

Grown, Harvested, Graded, Stored and Marketed Under the Personal Supervision of Members of the Van Bourgondien Family

Ours is the largest concern in Holland growing Dutch Bulbs and marketing them direct to American flower lovers. From the time the bulbs are planted until they are shipped to you postpaid, we control the factors which govern quality. Every step is supervised by a member of our firm.

It is our purpose to render a personalized service to American home owners and flower lovers. The men shown at the left have devoted their entire lives to bulb growing. In fact, the growing of fine bulbs is a family tradition, backed by generations of experience.

Infinite care and close personal attention to details are required to produce the super-quality Top-Size Bulbs listed in this catalog. No other concern is so well equipped to deliver Dutch Bulbs of such absolutely dependable quality.

The bulbs quoted in this catalog are all Top-Size. This is the largest size the market affords, often called "Exhibition Size." With such bulbs you can actually duplicate in your own garden the huge blooms seen at flower shows.

Our Dutch Bulbs are grown in our own fertile fields at Hillegom, Holland, under the personal supervision of a member of our firm. Every step in harvesting, grading and shipping is likewise personally supervised.

There are certain varieties of bulbs, such as Narcissus, which can be grown to perfection on Long Island. These we produce at our extensive nurseries at Babylon.

Remember, bulbs of the quality we offer are seldom offered at any price by local dealers or mail order houses. Indeed, only 40 per cent of our own crop measures up to the standard set for bulbs to be marketed under the Van Bourgondien label. You get only **the cream of our crop**, yet our prices are no higher than you would pay for bulbs of uncertain origin and inferior quality.

Points to Remember—Please Read Carefully

Prepaid Shipments. We prepay all carrying charges to destination on orders accompanied by cash.

C. O. D. Shipments. We will book your order on receipt of 25% of the amount of the order; the planting material will be shipped C. O. D. including transportation charges.

Minimum Orders. We cannot fill orders below \$1.00. Also please omit orders for less than six of a variety unless a price on each is quoted. Six or more of a variety are sold at the dozen rate;

twenty-five or more of one variety at the hundred rate; two hundred fifty or more of one variety at the thousand rate.

Order Blanks are enclosed for your convenience.

Extra Catalogs. We will gladly send copies of this catalog to any of your friends upon receipt of their addresses.

We will include in every shipment **free of charge**, our own most explicit Cultural Directions for indoor as well as outdoor culture.

Giant Darwin Tulips

May-Flowering

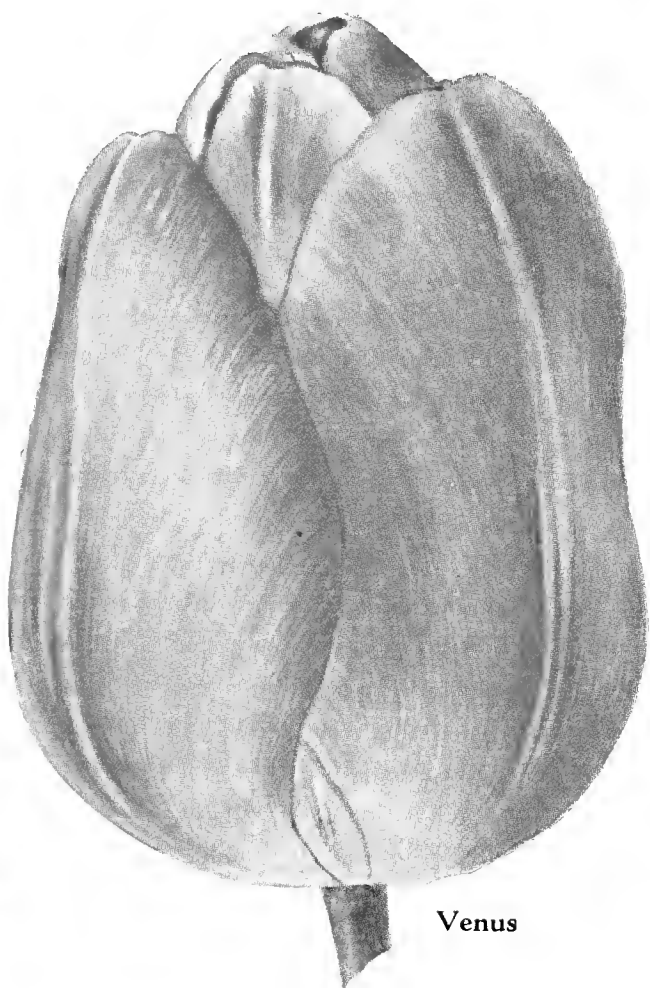

THE Giant Darwins have made a place for themselves in the hearts and gardens of American flower lovers. This popularity has been won through sheer merit. Darwins are most brilliant in colors and of great size, borne on tall, erect stems. Darwins will give you a most gorgeous show. Plant them in beds, in the border or among shrubbery.

HOLLAND in the Heart of New York

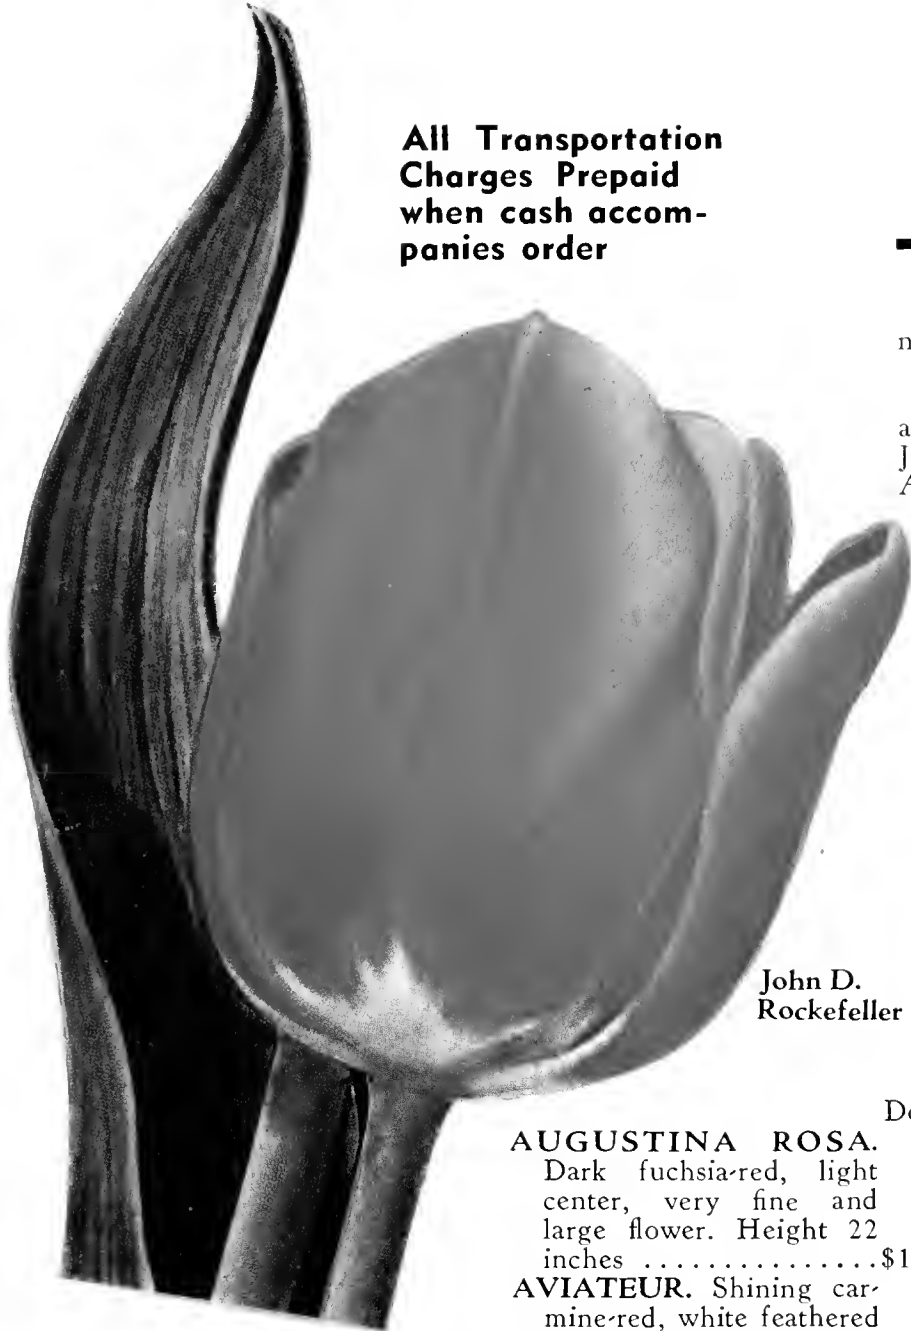

Tudor City plants 30,000 Dutch Bulbs grown by Van Bourgondien Bros.

WALK down East 42nd Street, toward the East River and you will come upon a pretty private park, surrounded by towering apartment houses and hotels, all of English Tudor architecture. This is Tudor City, one of the most aristocratic residential districts in New York City.

From early April to late May, Tudor City Park is aflame with riotous color. Last fall, over 30,000 Top-Size Van Bourgondien Bros. bulbs were planted to produce a lovely and continuous

display. The great size and delicate beauty of the flowers command the admiration of all who see them.

If Tudor City, where the management prides itself on using the best of everything, comes to Van Bourgondien Bros. for bulbs, surely these bulbs must be of a quality which will please you also. Yet they are priced no higher than you would pay for a good grade of bulbs anywhere.

Triumph Tulips

TRIUMPH TULIPS are a distinct race, unlike any other group. They were originated many years ago by Mr. Zocher, in Holland. As a hobby, he hybridized Darwin Tulips with Single Early Tulips and originated this new strain.

Triumph Tulips have the habits of the Darwins with the new color combinations which are not to be found in the Darwin Tulips. We especially recommend Elizabeth Evers, John D. Rockefeller, Red Flame, Rijnland, Tosca, Snowdrift, Aviateur, Eros, Red Rose, Avondzon and Papaver.

Old English Cottage Tulips

May-Flowering

THESE lovely Tulips are descendants of the attractive varieties originated in Holland during the Tulip boom of the 17th century. They spread throughout England and France where they were treasured in simple cottage gardens. Finally, they were rediscovered by the Dutch and taken back to Holland.

Through careful hybridizing and the selection of suitable soil, the modern varieties have been greatly improved. All imaginable colors are now represented in this class. The flowers have long stems and very graceful shapes, freer and more informal than the Darwins and Breeders. They are unsurpassed for the garden and ideal for cutting, blending nicely into mixed bouquets.

The Majestic Breeder Tulips

NEXT to the Darwins, the most popular class of Tulips. In our judgment, they far excel the Darwins in size of flower, length and strength of stem and general beauty.

Breeders are noted for their soft pastel shades, exquisitely artistic, also for their lasting qualities. They are

magnificent in the garden and for cut flowers where imposing formal effects are desired.

Excellent for slow forcing. Give the Breeders a prominent place in your planting program.

SPECIAL OFFERING OF ASSORTED TULIPS

Ideal Collection for Mass Planting and Cutting Garden

Extraordinarily Low Prices on Bulbs of Highest Quality

We have listed all the leading varieties of Tulips in this catalog. Perhaps, however, you are one of those to whom names mean little. You may want a riot of gorgeous color, a mass of brilliant bloom, regardless of the particular varieties used. If so, these Assorted Tulips will appeal to you at the low prices quoted below.

We grow only named Tulips, each variety in a separate block. All our Assortments are made up separately for each order at time of shipment. The bulbs used in filling these orders are of exactly the same size and quality as those used in filling our orders for named bulbs.

We use twelve different varieties when filling an order for a dozen Tulips. And we include a much larger variety when making up orders for 100 and 1000 lots of Assorted Tulips. In doing this, we carefully consider the color combinations, visualizing the garden effect the Tulips are to create.

This is your opportunity to secure the very finest Tulip bulbs for mass planting at prices far below the cost of named varieties. These Assorted Tulips are also excellent for planting in rows for cut flowers.

A Good Product is Worth a Fair Price

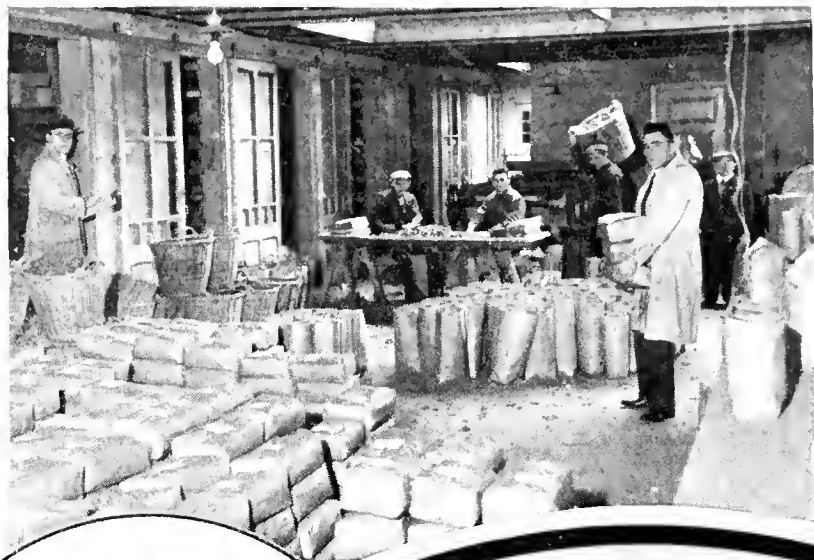

You garden for pleasure and satisfaction. There is neither pleasure nor satisfaction in planting inferior bulbs, however low the price.

There is great satisfaction and almost limitless pleasure in growing flowers of immense size and striking beauty from our large, healthy bulbs.

TRADE MARK

Intimate Glimpses of Our Nurseries at Hillegom, Holland

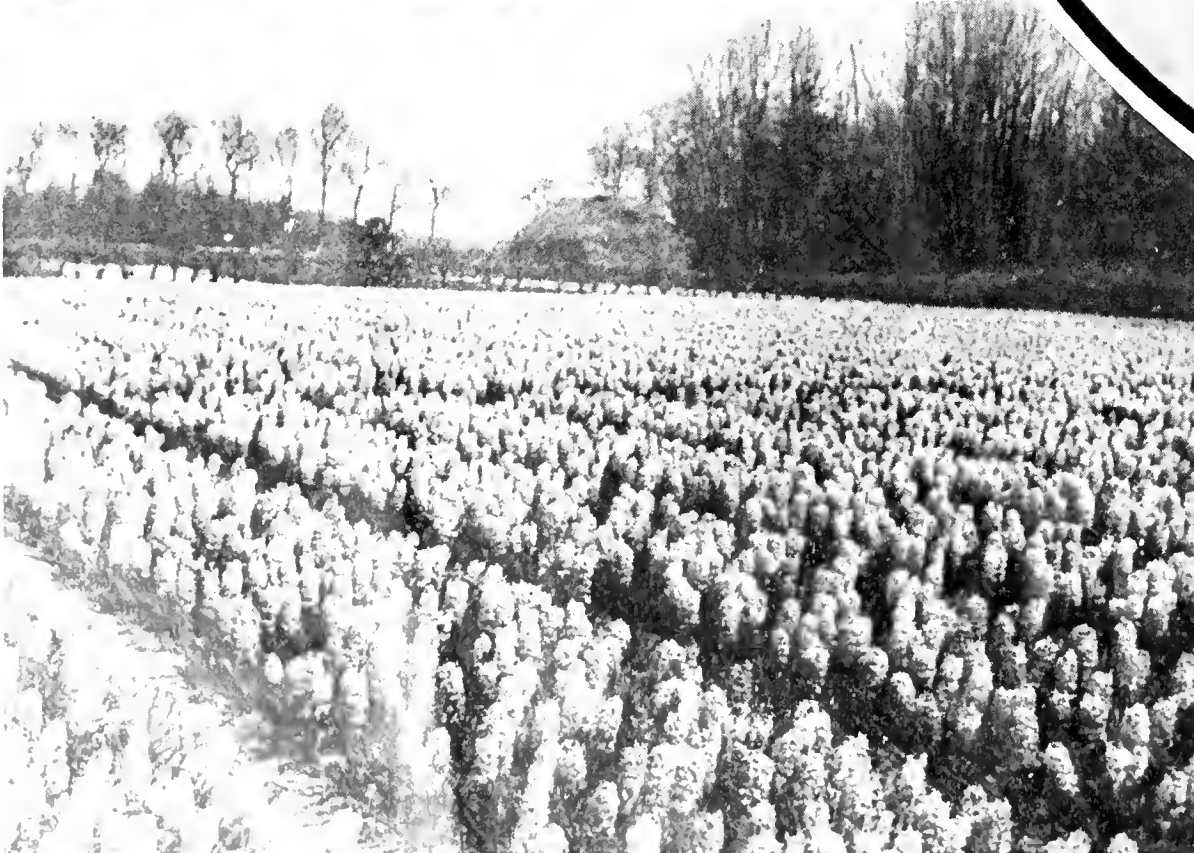

Here you see far-stretching fields of magnificent Tulips and Hyacinths, all on our own rich alluvial Holland land. Other views show our harvesting and packing crews busy with the bulbs we grow. In several of these views, Mr. Peter C. Van Bourgondien is seen, personally directing the work.

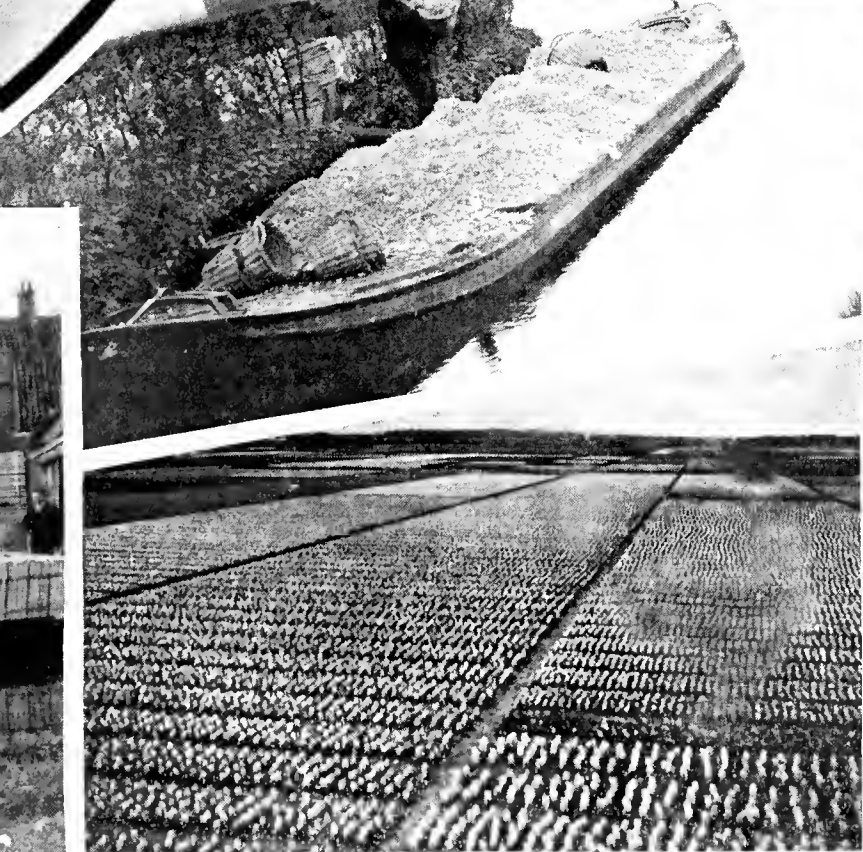

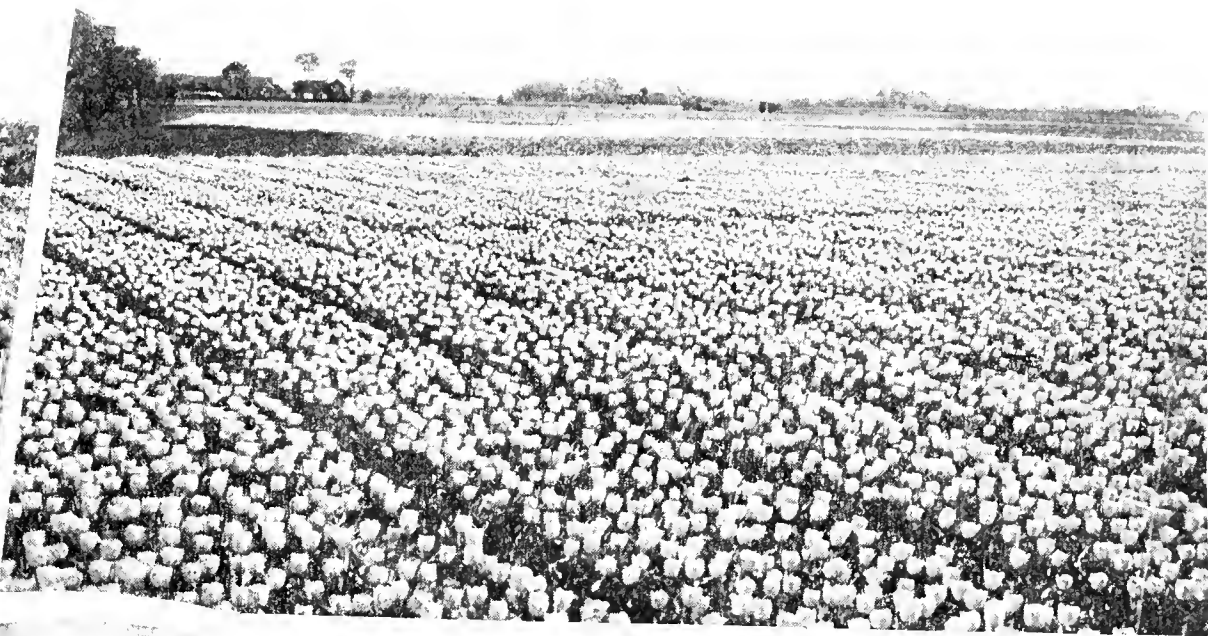

Complete Control of Quality

We are the largest concern growing Dutch Bulbs and shipping them direct to American home owners. Every step of producing, harvesting, grading and storing is personally supervised by a member of our firm. Only the cream of the crop is offered to the retail trade. About 40 per cent of our crop grades "Top-Size," and is considered worthy to bear the Van Bourgondien Bros. label. The remainder of the crop is sold through wholesale channels.

We offer you in this catalog the very choicest Dutch Bulbs that we can produce at prices no higher than you would pay elsewhere for bulbs of inferior quality.

Narcissus or Daffodils

Explanation of Daffodil Classes and Types

YELLOW TRUMPET varieties have trumpets which as a rule are longer or as long as the perianth segments (petals). They usually have a light or deep yellow perianth with a trumpet of deeper yellow.

BICOLOR varieties have creamy or pure white perianth segments and yellow trumpets.

BARRI varieties have light or deep yellow perianth segments and an expanded crown instead of a trumpet, which is light or deep with red or orange edge.

INCOMPARABILIS varieties have light or deep yellow segments, a crown of light or deep yellow very similar to a short trumpet.

LEEDSI varieties always have white segments, while the crowns are white or light yellow. They are very dainty.

POETICUS. Snow-white segments, crowns usually heavily rimmed orange or scarlet with a green eye in center of crown.

POETAZ. Cluster-flowered in white, light or deep yellow. Some varieties have orange or red rimmed small crowns.

JONQUILS. Usually bear small flowers in small or large clusters on one stem, and usually are sweet scented.

Imported and Native Daffodils

Mertensia Virginica - Virginia Blue Bells

A beautiful hardy perennial that should be planted with Daffodils for contrast. The flower buds are pink, opening into lovely dainty flowers of porcelain-blue, borne in nodding clusters. This beautiful spring flower starts blooming along with Daffodils and lingers to frolic with the May-Flowering Tulips. Delightful in the open border or along woody paths. Daffodils for Naturalizing

Hundreds of thousands of Daffodils are used yearly for this purpose, because when once planted they continue without any care to give you immeasurable joy year after year.

Numerous varieties have proved very successful for this purpose and we will use no others. Practically all types of Daffodils contain some varieties suitable for this purpose, thereby increasing the number of varieties and adding greatly to the desire of naturalizing Daffodils.

Only sizes which are most desirable for naturalizing without continuous care are selected for your favorite garden spot, "the natural garden." Only varieties having proved to be hardy are selected for this purpose.

Practically any soil has been found suitable, but when planted under and among trees and in woodlands, the leaves of the trees should not be removed, as taking away this natural food will not only injure your trees but also will prevent the Daffodils from producing as they should.

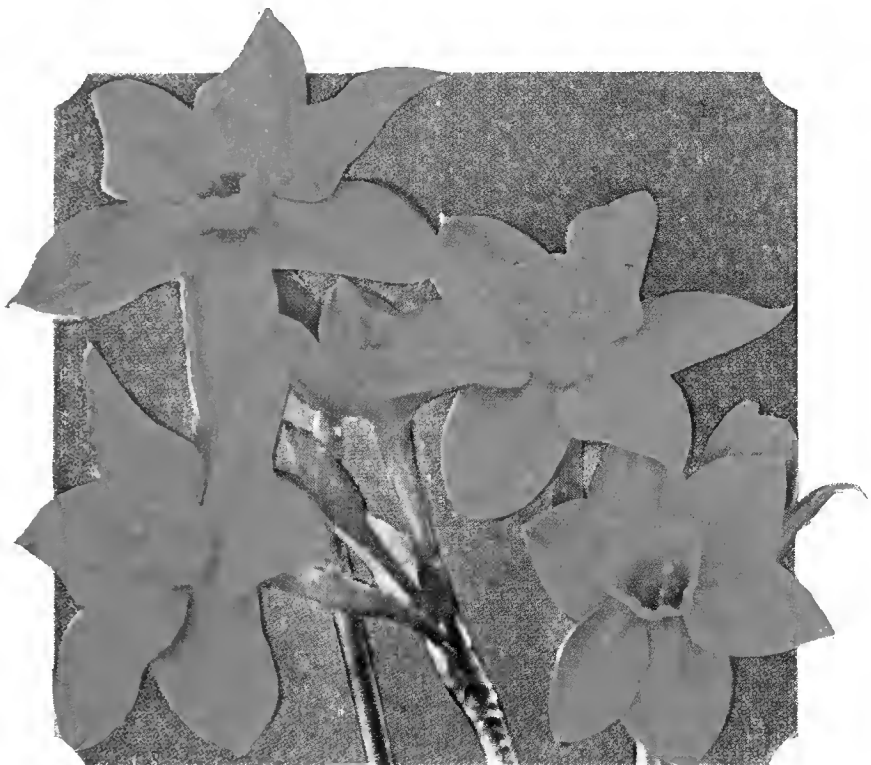

Plant at least 8 inches deep but avoid places where water may collect at any time as they like drainage.

Try to plant them before October 15th or shortly thereafter. Place your order early as the demand is increasing for these bulbs at the special low prices we have adopted. We cannot take orders for less than 50 bulbs.

French Bulbs for Indoor Culture

AMERICAN GROWN

The Narcissi named below are grown in the United States and will be available for shipment early in September. We can ship them then or later as you may desire. For early winter flowers, it is desirable to start them as soon as possible. Follow the directions given with each variety, and you will have an abundance of dainty, attractive flowers in early winter. These are the earliest flowering bulbs we offer. For a succession of bloom, start a new lot every two weeks.

Candidum or Madonna Lily

French Roman Hyacinths

Golden Yellow
Narcissus

Lilium Candidum

This is the exquisite Madonna Lily, which produces a large mass of snow-white flowers on straight stems. Plant these bulbs in the open in September or October, and protect them well from frost, as they are not extremely hardy, and during May or June you will have an abundance of flowers. Can also be planted in pots and by putting them in a cold frame for three months, well protected, then taking them into a greenhouse, the same success will be yours.

Jumbo bulbs only, 30c each; \$3.00 per doz.; \$22.00 per 100.

Golden Yellow Narcissus, Soleil d'Or

Soleil d'Or resembles the Paper-White Narcissus very much in habit, but is of an exquisite deep yellow color, with an orange-yellow cup. The culture is the same as for the Paper-White Narcissus. We expect to have some very fine stock of this variety to meet the steadily increased demand of the past few seasons. Do not forget to order a few and get acquainted with this wonderful flower.

We offer only the Exhibition Size : \$1.25 per doz.; \$9.00 per 100; \$85.00 per 1000.

Paper-White Narcissus

Suitable for Growing in Water and Gravel, Sand or Fiber.

We handle only the Giant Grandiflora variety, which is a great improvement over the ordinary Paper-White Narcissus. It can be had in bloom from Christmas until Easter, either in pots, bowls or boxes. Upon arrival, plant them immediately, if wanted early, and put in a cool place in cellar or pit, free from frost. When well rooted they can be taken into heat, and if watered freely they will produce an abundance of beautiful blooms. They are not hardy.

Jumbo or Exhibition Size, 80c per doz.; \$6.00 per 100; \$58.00 per 1000. First Size, 60c per doz.; \$4.50 per 100; \$42.00 per 1000.

French Roman Hyacinths

French Roman Hyacinths are among the earliest bulbs to be had in flower. The bulbs arrive from France late in August, and, like all bulbs grown in the south of France, they may be had in flower from November all through the winter months, if potted up in September and at intervals of every two weeks. They are much prized for pots or cutting on account of their graceful appearance and delicate fragrance.

WHITE. Mammoth bulbs, 12 to 14 cms., \$1.00 per doz.; \$7.50 per 100; \$70.00 per 1000.

Jumbo Bulbs. 13 to 15 cms., \$1.25 per doz.; \$9.50 per 100; \$90.00 per 1000.

Dutch Roman Hyacinths

These are the Hyacinths used for growing in bulb pans, and if planted 10 to 12 bulbs to an 8- or 9-inch pan, they cannot be surpassed. They are apparently small bulbs, but in comparison to their size they produce immense flowers. On account of their low price and splendid results, they are very much in demand for house culture. By planting only one kind in a pan, the best results can be obtained, as then they produce an even growth. By following the same cultural directions as given for the Hyacinths, failure is impossible. They are also greatly used for bedding.

Hyacinth Bulbs Grown in Our Own Holland Nurseries

Personal Supervision Assures Quality

On pages 16 and 17 of this catalog, we show some of our fields of Hyacinths growing at our Nurseries, Hillegom, Holland. These receive the same expert care as do our fields of Tulips.

After harvesting, they are carefully graded. The very largest are graded as Exhibition Hyacinths. These are for special display where it is desired to have flowers of great size, each a perfect specimen.

The next grade, our Special Bedding Hyacinths, are as large as the best grade offered by many houses. They are from the same fields as the Exhibition Hyacinths, and differ only in the size of the bulbs.

We are not absentee growers. A member of our firm goes right into the field with the working crews. He supervises the planting, growing and harvesting. Then he follows the bulbs into the warehouse. He makes sure that they are properly cured and accurately graded.

Last year, he loaded the cream of the crop on a Dutch steamer and personally accompanied the bulbs to the port of New York. Nothing was left to chance or to those who have no special interest in the bulbs.

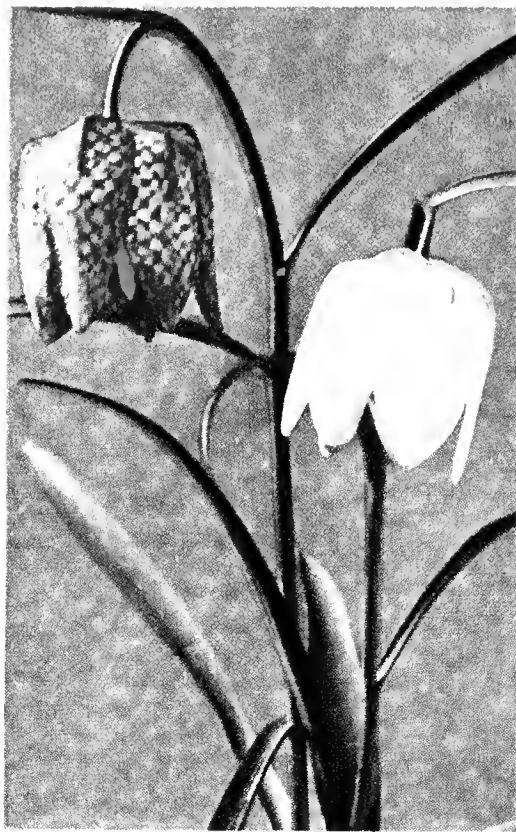

No other house of comparable size exercises such complete control over the bulbs from the time the stock is planted in our Holland Nurseries until they are shipped to you postpaid.

Miniature Bulbs for the Rock Garden

Fritillaria Meleagris

Singular, dwarf, spring flowering plants, bearing large, pendent, bell-shaped flowers of various colors, in yellow, white, black, purple, striped and splashed, and checkered in the most curious way. They are invaluable for pot culture, and exceedingly pretty when grown in large groups in the garden border or wild garden in a dry situation.

MIXED. Select mixtures. 45c per doz.; \$3.25 per 100; \$30.00 per 1000.

Chionodoxa

(Glory-of-the-Snow)

An early flowering spring bulb for borders or rockery. Produces flower spikes bearing 10 to 15 scilla-like flowers. Perfectly hardy and should be planted close together for effect.

LUCILIAE. Deep blue, with a white center. Selected mother bulbs, 30c per doz.; \$2.25 per 100; \$20.00 per 1000.

SARDENSIS. Deep blue. 35c per doz.; \$2.50 per 100; \$23.00 per 1000.

Scilla Campanulata

All the varieties of Scilla Campanulata are splendid for naturalizing because they will flower in shady places. All have bells like small hyacinths, forming long, graceful spikes.

CAMPANULATA ALBA MAXIMA. Large, pure white. 40c per doz.; \$3.00 per 100.

BLUE QUEEN. Large, bright blue. 40c per doz.; \$3.00 per 100.

ROSE QUEEN. Soft lilac-rose. 40c per doz.; \$3.00 per 100.

Eranthis Hyemalis

(Winter Aconite)

Early in spring the golden blossoms look charming, resting on an emerald-green cushion of leaves and forming a striking contrast to the Snowdrops, Scillas and Chionodoxas. The foliage remains long after the flowers, making the plants especially valuable in moist situations, such as under trees, which the Winter Aconite enjoys, and where few other flowering plants will thrive. 3 to 8 inches high. 35c per doz.; \$2.50 per 100; \$23.00 per 1000.

Muscari

(Grape Hyacinth)

The foliage of this plant is very similar to that of Scilla, but the flowers are of an entirely different form—grape-like clusters closely set—and are wonderful cut flowers. Always exquisite when naturalized.

ALBA. White. 50c per doz.; \$3.75 per 100; \$35.00 per 1000.

BLUE BIRD. An immense improvement over the former variety; the flowers being twice as large and growing taller, and of a delightful heavenly blue. 70c per doz.; \$5.00 per 100.

HEAVENLY BLUE. 35c per doz.; \$2.50 per 100; \$23.00 per 1000.

PLUMOSUM (Plume Hyacinth). Flowering in May. Beautiful feathery plumes; violet-blue. Height 8 inches. We strongly recommend this variety for your garden. Very unusual type of Muscari. 60c per doz.; \$4.50 per 100.

ARMENIACUM. A new, very large Muscari, larger than Heavenly Blue; good forcer. 50c per doz.; \$3.75 per 100.

Scilla Sibirica

Scilla sibirica naturalize splendidly, are cheap and so can be planted liberally.

SIBIRICA, BLUE. 45c per doz.; \$3.50 per 100; \$33.00 per 1000.

SIBIRICA, SKY BLUE. A trifle lighter blue than the former with large flowers of a most beautiful heavenly blue color. 60c per doz.; \$4.50 per 100; \$43.00 per 1000.

Snowdrops

(Galanthus)

Everybody knows the Snowdrops; with their little white bells coming through the snow; practically the first flower to show itself after the dreariness of winter. It is a wonderful bulb for naturalizing and for every garden.

NIVALIS (Single). 35c per doz.; \$2.50 per 100; \$23.00 per 1000.

NIVALIS. (Double.) 45c per doz.; \$3.25 per 100; \$30.00 per 1000.

Collection of Bulbs for the Rock Garden

COLLECTION No. 24

Last but not least, the earliest of all spring arrivals when the snow is not quite off the ground, they show their heads in defiance of past winter and when left undisturbed they will do so year after year, in sun, shade or partial shade, under bushes, trees or in your rock garden.

PEONIES—The Rival of the Rose

The old-fashioned early-flowering Peony with its deep pink color is still holding its own against the modern high-priced Peony. In spite of all competition there are no Peonies more popular than this fine old Officinalis variety. We ship only large, vigorous clumps.

JAPANESE IRIS

Japanese Iris are increasing in popularity as garden lovers realize their many advantages. They bloom in late June and early July, long after the German (Tall Bearded) Iris are gone. The unique flat-topped flowers are of enormous size.

They form masses of gorgeous color and are extremely useful

for cutting. Japanese Iris will make a splendid background for your lily pool.

Unless otherwise requested, we will ship the roots in September, which we regard as the ideal time for planting Japanese and other Iris. This enables them to become well established before freezing weather.

Novelty Japanese Iris

75c per clump

BETTY F. HOLMES. New, pure white double. Compared to Gold Bound, the flowers are larger with lemon-yellow midrib instead of orange-yellow. The foliage is a deeper green and more graceful. A distinct improvement over Gold Bound.

BLUE GIANT. Semi-double. Immense size. Golden base surrounded by blue, shading to violet and purple. One of the best.

ELBRUS. Double. We consider this the best of all the clear lavenders. The flower is exceptionally large, six-petaled, and in color is a beautiful clear lavender, almost azure-blue. Plant of vigorous growth, moderately tall, strong, graceful foliage.

KHA KHAN. Single. White suffused with blue. Purple stigmas. Extra large and fine.

GERMAN IRIS *Garden Orchids*

These are the Tall Bearded varieties that bloom in midspring, closely following or overlapping the May-Flowering Tulips. Because of their great variety of colors and delicate shades, they make a great show. Plant in full sun, in scattered clumps or massed for color display. German Iris are almost indispensable in the border. They are hardy and easily grown.

ENGLISH IRIS

(*Bulbous*)

Mixed

For Outdoor Planting Only

Although called English Iris, this lovely bulbous Iris originally came from the alpine meadows of the Pyrenees. In the sixteenth century, it made itself at home in England, hence, its name. It is extremely hardy and loves a cool, moist soil.

The English Iris have been almost non-existent in the United States, and could not be imported. Fortunately, we located a farm in Michigan where these Iris can be grown to perfection very successfully. Starting with a small stock, we have built up what is doubtless the finest stock of English Iris in America.

They come in mixed colors including numerous shades of blue, purple, white, veined and feathered. To place these fine bulbous Iris within the reach of every flower lover, we have dropped the prices surprisingly low.

PRICE:

Per doz., 50c; per 100, \$3.75; per 1000, \$36.00.

This year we are able to offer English Iris in 5 named varieties.

50 BULBS in 5 varieties\$2.75
100 BULBS in 5 varieties 5.25

Each variety labeled.

DUTCH IRIS

(*Bulbous*)

For Outdoor Planting Only

Like the English Iris, the ancestors of the Dutch Iris came from Spain. The race has been bred and hybridized in Holland, increasing in size, earliness and variety of coloring.

We have selected 6 of the most outstanding varieties. They bloom ahead of the German Iris, at a period when Iris are scarce in most gardens.

Plant them in well drained soil about 5 inches deep. We recommend a heavy mulch during the winter.

Fritillaria Imperialis

(Crown Imperial)

This unique and most attractive flower derives most of its name from the crown-shaped flower, as shown in the illustration. The original species grew wild in English meadows, and the present form is excellent for naturalizing as well as for the garden or border. It blooms in May and June. Children admire the pearly drops of nectar found in the chalice.

For best results, the bulbs should be planted soon after Labor Day.

ORANGE. 35c each; \$3.50 per doz.

RED. 35c each; \$3.50 per doz.

YELLOW. 75c each; \$7.50 per doz.

CROCUS

New Strain, Giant Flowering

Last year, we offered our customers a new race of Giant Crocus which we called the IDEAL CROCUS. While we have not increased the price over that formerly asked for the older strains, we can truthfully say that our customers now receive double value. Plant them this year, you will marvel at the flowers early next spring.

These new Crocus are so far superior in size and beauty we feel sure that the older strains will disappear from the market as soon as the Ideal Crocus can be produced in sufficient quantities. The bulbs offered here are Top Size, grown in our own Holland Nurseries. Even the Mixed Collections are made up of named varieties.

AGNES. Deep lavender.

AMETHYST. Porcelain-blue, glancing lilac; extra.

CHARLOTTE PATTI. Lilac striped.

GLADSTONE. Deep purple; extra large.

KATHLEEN PARLOW. Pure white.

MARGOT. Striped.

MASTERPIECE. Dark purple.

REMEMBRANCE. Sky-blue, rich flowering.

SNOWSTORM. Pure white.
